ABOUT ME

Solution-driven Software Engineer with a strong foundation in building modern web and mobile applications using Angular, React.js, ASP.NET MVC/Web API, MAUI, and Blazor. Experienced in delivering full-cycle project development from dynamic UI design to real-time features and third-party integrations. Known for adapting quickly to new technologies and taking ownership of customized solutions that meet specific business needs. Whether it's a scalable enterprise platform or a feature-rich mobile app, I bring a proactive mindset and a passion for solving real-world problems with clean, maintainable code.
